

# Organic Growing Ukraine

We are your partner  
in organic + conventional production  
of medicinal herbs and roots.

We have land available to us in  
different parts of Ukraine, that  
enables us to choose the right soil  
for different growing technologies.

We use the newest machinery and growing  
techniques to achieve the highest volume  
of active ingredients in our products.

You get a height quality product,  
which is agreed in quality and quantity  
right in time.

We are open for control at any  
stage of growing and production.

Our purpose - is to produce a high  
quality product that requires customers  
needs.

**No advance payments from your side is needed** – we  
invest our own money at every stage of production.

If you require any further information,  
feel free to contact us:
